EDUCATION

Tekirdağ Namık Kemal University B.S. in Computer Engineering	2023 - 2026 (Expected 3 years)
Çanakkale 18 Mart University Associate Degree in Computer Programming	2021 - 2023
Google Game and Application Academy Scholar - 6-Month Intensive Software and Entrepreneurship Training	2023 - 2024

TECHNICAL SKILLS

Programming Languages	Python, Dart (Flutter), C, C++, C#, PHP, JavaScript, HTML/CSS, Django
Mobile & Web	Flutter, Kivy, KivyMD, WordPress, Wix, XAMPP (Localhost), Django, PHP, JS, HTML/CSS
Databases	MySQL, MSSQL, Firebase
AI & Image Processing	OpenCV, Tesseract OCR, Jetson Nano, Machine Learning Applications
Embedded Systems	Arduino, ESP8266, Jetson Nano (Edge AI)

LANGUAGES

Turkish [5/5]
English [3/5]
German [2/5]
Morse Code [5/5]

EXPERIENCE

ML Computer Software Hardware Ltd.
Software Intern

- Participated in the company's software development lifecycles.
- Gained hands-on experience in hardware and software integration.

BIONLUK
Team Manager & Freelance Developer

- Managed website and mobile application development processes tailored to client needs.
- Developed dynamic websites (Trading-Listing systems) with MySQL connections.
- Published mobile applications integrated with Firebase.

Düşünürler Dergisi
Founder

- Developed the technical infrastructure and founded the www.dusunurlerdergisi.com platform. 2022-2025

Google Club and Devfest
Project Manager

- Conducted project management processes and organized technical training within the Namık Kemal University Google Club.
- Designed and launched the club's official website <https://nkugoogle.info>; optimized digital workflows using Google Forms and Blog integrations. 2025-2026

PROJECTS

MathPath & Morse (TEKNOFEST FINALIST (2025))

Mobile Application

Mobile tools published on application markets capable of advanced mathematical calculations and text-to-morse code conversion.

Genetic Data Analysis and Disease Prediction

ML & Deep Learning

Ongoing work on a Deep Learning-based model that analyzes genetic sequence data to detect potential disease risks and genetic predispositions.

Unique Image Compression Software

Algorithm Design & Python

An original compression engine that divides images into pixel grids, performs grayscale analysis, and converts data into Unicode characters using **Modified RLE** and **Dictionary-Based (LZW-like)** algorithms. Successfully reduced 210 KB of raw data to 16 KB with minimized quality loss.

Teknofest Team Management System (Jira Clone)

Web Development

A web-based management platform with Jira-like features developed to ensure task distribution, process tracking, and project management for 3 different teams within the scope of Teknofest.

NKU Google Club Management Portal

Full-Stack Development

A management system digitizing internal member management, event organization, and announcement processes.

Logic Gates Educational Platform (nkugoogle.info/mantik)

EdTech

A web-based simulation tool developed to support logic circuit education, allowing students to experience gates interactively.

Remote Controlled Vehicle (ESP8266)

Embedded Systems & IoT

A robotic vehicle project capable of remote command using the ESP8266 Wi-Fi module. (Demo and driving tests published on YouTube.)

Düşünürler Dergisi Platform

Web Platform

Technical infrastructure and management of a collective publishing platform (www.dusunurlerdersigi.com) that brings together successful writers and encourages intellectual content production.

Ancient Egyptian Hieroglyphic Translation (TÜBİTAK 2209A)

Image Processing & AI

A mobile application using Python, OpenCV, and Tesseract OCR technologies to scan ancient hieroglyphs via camera and provide instant digital translation.

Smart Plant (Mobile-Web & Arduino)

IoT Project

An Arduino-based IoT system that tracks plant health with real-time sensors and provides data for optimal growth conditions.

** In addition to the projects listed, there are numerous freelance projects successfully completed and delivered under a remote working model.*

CERTIFICATES

TEKNOFEST 2025 FINALIST Certificate

TÜBİTAK 2209A Project Experience Certificate

Google - Application Development with Flutter (2022-2023)

Google - Entrepreneurship Certificate (2023-2024)

Google - Bootcamp (2023-2024)

Google - Google Project Management (2023-2024)

Google - Project Execution: Running the Project (2023-2024)

Google - Foundations of Project Management (2023-2024)

Google - Agile Project Management (2023-2024)

Google - Capstone: Applying Project Management in the Real World (2023-2024)

Google - Project Planning: Putting It All Together (2023-2024)
